1. **DETAILED ACTION**

Election/Restrictions

2. Newly submitted claims 11-23 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Original claims 1-10 are directed to a composition and an article containing said composition and they are classified in class 524, subclass 190. Newly submitted claims 11-23 are directed to a method and an article produced by said method and they are classified in class 219, subclass 121.64.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 11-23 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

3. The amendment filed on 6/28/05 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The new claims are not readable on the elected invention because they are classified in class 219, subclass 121.64 while the original claims were searched in class 524, subclass 190.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the
